

2.2 Write a program that uses `input` to prompt a user for their name and then welcomes them. Note that `input` will pop up a dialog box. Enter **Sarah** in the pop-up box when you are prompted so your output will match the desired output.

[Check Code](#)[Reset Code](#)

```
1 # The code below almost works
2
3 name = input("Enter your name")
4 print("Hello", name)
```

Your Output

Desired Output

Hello Sarah
